A. Responsibilities

To keep apprised of governmental rules and regulations and accepted practices within the natural gas industry pertaining to the prevention and control of corrosion; and to keep member companies informed.

B. Duties

1. Assist member companies to develop plans and programs for application of corrosion control and prevention techniques.
2. Participate in the development of educational programs for the purpose of training operating personnel of member companies concerning corrosion control.
3. Keep abreast of new developments in the field of corrosion control and inform member companies.
4. Inform member companies of new requirements by government pertaining to corrosion mitigation.
5. Execute other assignments and conduct special studies as requested by the Trustees.
6. Periodically review and update the responsibilities and duties of this committee.
