**A. Responsibilities**

Keep apprised of developments which affect the gas supply availability and reliability throughout the state and exchange ideas with respect to gas control center methods, technology and practices; and to keep member companies informed.

**B. Duties**

1. Keep abreast of developments that may affect the gas supply availability in the state, and inform member companies.
2. Provide a forum for exchange of ideas and work practices with respect to gas control centers and gas supply practices among member companies.
3. Establish and maintain a communications network of gas control centers throughout the state.

4. Keep abreast of new trends and technologies in the industry which may contribute to helping gas control centers operate more effectively and share that information.
5. Keep abreast of, discuss, and exchange ideas on proposed interstate pipeline operating practices which may affect the ability to receive gas into statewide distribution systems.
6. Execute other duties and assignments as requested by the Trustees.
7. Periodically review and update the responsibilities and duties of this committee.
