

2011 CONFERENCE

*This year's **Market Conditions Conference** features ten speakers covering a wide range of topics that are relevant to today's gas market. The program will bring together senior industry experts to discuss current market conditions, as well as topics ranging from the impact of "Choice on the Ohio Markets" to the ever changing role of natural gas in the Power Generation segment.*

The Ohio Gas Association (OGA) represents over 30 local distribution companies, cooperatives, and many intra and inter state gas transmission firms, as well as over 10 natural gas commodity marketers whose customers include residential, commercial, and industrial gas users. We strive to promote member satisfaction, public safety and public awareness.

In order to meet the needs of our customers and discuss our market conditions, the Ohio Gas Association invites you to attend a conference scheduled for Tuesday, July 19 -Wednesday July 20, 2011.

Please join us for a golf outing immediately following the conference on Wednesday, July 20th at Winding Hollow (formerly known as East Golf Club) in New Albany, Ohio.

The member companies of the Ohio Gas Association serve over 3.6 million customers in Ohio.
