

Jeff Maynard – Instrumentation Engineer, Utility Technologies International (UTI)

Mr. Maynard received his Bachelor of Science degree in Electronics Engineering Technology from Devry University in Columbus, Ohio in 1986. Prior to joining UTI in 2008, Jeff was employed by the Hewlett-Packard Company for 20 years as an HP commercial systems customer engineer, Information Technology consultant, and project manager. Jeff is responsible for SCADA, electronic gas measurement, automated meter reading, instrumentation installation, and project management for UTI projects.
