**Dominion®**

**Job Title:** Dominion East Ohio – Engineering Technician-Design

**Job Number:** 15198

**Location:** Akron, OH

**IMPORTANT:** For a more detailed job description and to apply, please visit [www.dom.com/careers](http://www.dom.com/careers) and reference Job number 15198. This position will be posted for an unspecified period of time, so please apply promptly if you wish to be considered.

Dominion is one of the nation's largest producers and transporters of energy, with a portfolio of approximately 28,200 megawatts of generation, 11,000 miles of natural gas transmission, gathering and storage pipeline and 6,300 miles of electric transmission lines. Dominion operates the nation's largest natural gas storage system with 947 billion cubic feet of storage capacity and serves retail energy customers in 15 states.

**Job Summary:**

Performs drafting, design, related paperwork and other engineering, and record maintenance activities associated with the design of Company facilities. May work under the direction of like classifications and/or supervisor, but is often left to own resourcefulness to accomplish the work. May lead, direct and assign the work of like classifications as well as contractors.

Prepare computer assisted drawings in accordance with Company standards.

Completes necessary paperwork. Input data into company record systems as required.

Provide information and direction to others regarding company facilities. Coordinate activities on Company projects utilizing engineering records, field book and mapping information, etc. Compile cost estimates for construction projects. Design the installation and/or relocation of company facilities, including required material and piping configurations for pipelines, services, pressure regulating stations, etc. Perform duties within the Engineering Technician – Inspection classification for which he or she is qualified.

**Knowledge, Skills & Abilities:**

**Required:** Experience or formal training in computer aided design (CAD).

*In your resume, be sure to specify with which CAD platforms you have experience or formal training.*

**Also required:** Good computer, math, and communication skills (written and verbal).

**Preferences** *(Be sure to include in your resume if you have any of these preferred skills or experience):*

- 1) GIS experience;
- 2) Utilities experience;
- 3) MS Office experience;
- 4) Understanding of welding, plastic fusion, inspection and test procedures;
- 5) Awareness of State and Federal regulations as they pertain to facility design and construction.

Must have a valid driver's license and may be required to use a personal vehicle for Company business use.

**Education:**

**Required:** Vocational or technical training in an engineering or related (drafting/design) discipline.

**Required:** Experience or formal training in computer aided design (CAD).

*In your resume, be sure to specify with which CAD platforms you have experience or formal training*

**Dominion is an equal opportunity employer and is committed to a diverse workforce.**
