presents

**FIRST RESPONDER / GAS  
LEAK PINPOINTING TRAINING**

October 2, 2014

**An OGA Gas Operator Training Tool**

*Ohio Gas Association  
Training Center  
6100 Emerald Parkway  
Dublin, OH 43016*

## AGENDA

### **Instructor:**

***Ron Six of RM Six Consulting Services, LLC***

This program is designed to teach “first response” personnel the proper procedures which can be followed when responding to gas leaks, “dig-ins”, odor complaint calls or other possible gas related emergencies. This course covers the proper use of gas and carbon monoxide detecting instruments and suggests how to use this equipment effectively in determining if a problem exists. Hazard identification and procedures for handling gas related emergencies will also be covered along with steps to follow in pinpointing underground gas leaks. Each person in attendance will be provided with a training booklet and the AEGIS Emergency Tip Cards/Visor set.

8:30 a.m.	Registration	12:30 p.m.	Odor complaint investigation - receiving the call
9:00 a.m.	Physical properties of natural gas Combustion chamber demonstration Major leakage causes & case histories		Odor complaint investigation - responding to the call Conducting the odor complaint investigation “Table top” mock emergency drills
10:30 a.m.	Break		Emergency response
10:45 a.m.	Proper use and interpretation of gas and CO detection instrument readings Hazard recognition Gas leak evaluation/Classification & MAKESAFE	2:00 p.m.	Break
		2:15 p.m.	Pinpointing underground leaks and proper use of soil purgers/aerators
11:45 a.m.	Lunch	3:30 p.m.	Voluntary written exam
